Best Practice-1: Seed ball Preparation

Objectives of the Practice:

Seed Ball is a technique of planting tree species by embedding organic seed balls in the ground. It is a hand – on activity of moulding, soil, Vermicompost ,seed and water with your hands until everything sticks together and roll the mixture into firm seed balls and leave the balls into dry in a sunny spot for at least 48hours before throwing. With the seed bombing activity vegetation can be introduced in any land by dropping seed balls in one hand and to initiate afforestation at unused waste land.

The main objectives are.

- Students will learn the technique and create seedballs
- To promote environmental sustainability
- To initiate vegetation at wasteland
- To create awareness among the people to reduce pollution and to build sustainable future.

Brief Description

Dr sandeepkumar k , Head of botany , S A College Naregal, was the chief guest and speaker for the programme , and also demonstrated the procedure of seed ball to the students .Principal and total 70 students , 10 faculty members , 01 attendant combinely carried out the activity of Seed Ball preparation in Department of Botany , S A College naregal . students prepare 2000 seed ball for plantation .

The context

Seed ball is the new way to retrieve green species, build environmental sustainability and green living in the community. The practice is environmental friendly ineffective contribute towards the goal of promoting and conserving living. Seed ball can be launched at anywhere and this can impact on the environment included loss of biodiversity, environmental contamination and global warming. Seed ball practices prevent desertification to promote public awareness on global warming and climate changes. Soil exploitation due to deforestation and urbanisation can be control.

- Seed balls are full of potential they can make unused land beautiful and useful again, restore plant and wild life populations they being communicates together.
- Seed ball are the main weapon can use to spread vegetation at unmaintained areas along the highways sides, dividers between roads, railways building gardens. Without permission, spread flowers in bare lands and create beauty and habitual

The Practice

Our college has taken up seed ball practices is one of the best practice and executing the activity regularly by involving students and staff.

Best Practice - 2

Title of the Practice:

Read a book Answer the Question Get a Pen - "THE MORE YOU READ THE BEST YOU ANSWER"

Objectives of the practice:

1. Encouraging students about the prominence of reading.
2. Knowing how to read, what to read, how much to read and when to read matters a lot.
3. To inculcate the habit of reading and to make the students answer
4. The clear goal of this activity is to generate interest of reading books among the students utilizing library resources.

The Context: As the practice (Read a Book, Answer the Question and Get a Pen) Theand its introduction costs nothing there was any difficulty found in introducing it. Even students accepted the practice without any issue.

The Practice: Reading is the powerful source of knowledge and information. Being students, they have to have the habit of reading more and more books it's the only source to gain unlimited knowledge. It has been observed that today's generation is not studious yet they are having high IQ but reading supplements their knowledge.

Evidence of Success: Students are motivated to read more and more books in order to gain knowledge. This practice has generated interest among them to take up reading and refer as many books as possible. It also has polished their Answering skills too. Now students are more confident, knowledgeable and creative. We find a positive impact of this on results of the students.

Problems Encountered and Resources Required: As this practice is completely cost free and even its implementation is not at all difficult there was no problem encountered. The very small amount needed to spend on awards that are the pen which is managed by the college. As resource to this the Librarian of our institution is providing books to the students from our rich library and all the other faculty members guiding them on how to read the books.
